SUMMARY

I am a Software Engineer based in Pafos, Cyprus. Creative, detail-oriented, with a deep interest in web development. Experience in both Frontend and Backend development, always using my skills to build user-friendly websites. Looking to bring my skills to a tech company with a global reach.

SKILLS

HTML/CSS | JavaScript | Node.js | ReactJS | MUI | Git

PROJECTS

Who Am I? - Quiz App

React-TailwindCSS

Who Am I? is a Simple Quiz App where you have to choose the correct character within four possible answers. The app was created for learning purposes and to become familiar with certain technologies.

Covid-19 Detection System

Javascript-NodeJS

Covid-19 Detection System is a crowdsourced traffic data collection system where you are able to create a declaration of a possible case for the purpose of providing traffic information at points of interest, but also informing about possible contact with a reported case, as a means of controlling spread.

WORK EXPERIENCE

100 Devs, Software Engineer

02/2021 – 04/2021

- Designed and developed full-stack applications across multiple platforms
- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Used HTML, CSS, Javascript to build dynamic web applications
- Maintained detailed git history for all projects and used Github in a team environment.

EDUCATION

University of Patras

10/2018 – 06/2023

Integrated MS degree in Computer Engineering & Informatics

(Expected)
